10	quarter			Advanced Words	Notes
11	total		23	plural	
12	average		24	quantity	
13	grand		25	quantifier	

## GRAMMAR; Quantifiers

We use a quantifier to describe how much/how many of something. It is always used *before* the noun.

Quantifiers for countable nouns are easy - usually just a number, but quantifiers for uncountable nouns can sometimes be more difficult.

Your teacher will give some examples of correct and incorrect grammar.

Pay attention now!

## Discussion

*The Japanese language has over 500 different "counters." About how many do you use in your day-to-day life?*

*Are there any counters which seem strange to you?*

Are these nouns countable (c) or uncountable (u)? Circle the correct answer

people ... c / u

email address c / u
