### Small talk conversation

Read the passage below then practice your own!

Acronyms are very important in the English language. They help by shortening the word or phrase to help avoid distracting the reader or listener. Acronyms are everywhere in the English language and are not only used in texting but also in business. Here is a small list of some important Acronyms you may here if you were to go abroad and work for a foreign business:

1. CEO - Chief Executive Officer: This person is the head of the company, its leader or the one in charge.
2. IT - Information Technology: If you are having trouble with your computer or anything tech related, talk to him.
3. R&D - Research and Development: If you are working in a field of science, these people are important to creating new product for the company or even find ways to make the product they already have better!
4. NDA - Non-disclosure Agreement: Some companies may have you sign this form, in case of leaking private info.
6. HR - Human Resources: if you have issues with a coworker or the company, these are the people to talk to for help
